PROCEDURE FOR CREATION AND UPDATING OF SOPs			Page 1 of 8
SOP No:	1-DOC-001	Effective Date:	2020-07-24
Revision No:	2	Supersedes:	1
Revise By:	2022-07-24		

LIST OF ABBREVIATIONS

GAP	Good Agricultural Practice
GSP	Good Storage Practice
AR	Authorised Representative
SOP	Standard Operating Procedure
QAM	Quality Assurance Manager
GAP	Good Agricultural Practice
GMP	Good Manufacturing Practice
GSP	Good Storage Practice
GLP	Good Laboratory Practice
GWP	Good Warehouse Practice
GDP	Good Distribution Practice

1. OBJECTIVE:

To ensure that Standard Operating Procedures (SOPs) are created uniformly to facilitate the compliant and effective use thereof and that SOPs are regularly updated as circumstances change or new systems are introduced.

2. SCOPE:

This SOP explains the processes to be followed when creating, updating, maintaining and distributing SOPs.

3. RESPONSIBILITY:

AR	Authorised Representative
QAM	Quality Assurance Manager

4. POLICY:

4.1 An SOP is an authorised procedure, approved by the AR, which gives step by step instructions for performing a defined operation, which is to be adhered to by all personnel.

STANDARD OPERATING PROCEDURE

PROCEDURE FOR CREATION AND UPDATING OF SOPs

Page 2 of 8

SOP No:	1-DOC-001	Effective Date:	2020-07-24
Revision No:	2	Supersedes:	1
Revise By:	2022-07-24		

4.2 An SOP defines the system of control, in order to reduce the risk of error inherent in oral communication, and to ensure that personnel are properly instructed in the details of the procedures.

4.3 There shall be a written SOP for every critical procedure related to Cultivation, GAP, GMP (where applicable) GSP, GLP, GWP and GDP. SOPs shall contain all necessary information, but no superfluous (unnecessary) data.

4.4 The SOP shall be written in the prescribed format, by the consultant, AR or identified head of department and authorised by the AR prior to distribution.

4.5 SOPs will be maintained as per the details included in this SOP.

5 PROCEDURE:

5.1 SOP Format:

5.1.1 Every page of each SOP shall have a header and footer reflecting:

- Name of the company
- Title
- SOP number – a unique number for every SOP
- SOP revision number
- Effective date
- Supersedes revision number
- Sequentially numbered pages (i.e. page 1 of 4, page 2 of 4, etc.)
- Revise by date
- "Compiled by" block with name of compiler
- "Authorised by" block with name of the person delegated to authorise
- "Approved by" block with name of AR
- SOP "Copy No." block for copies for distribution

5.1.2 SOPs shall be laid out in the approved format and the headings numbered as follows:

PROCEDURE FOR CREATION AND UPDATING OF SOPs

Page 3 of 8

SOP No:	1-DOC-001	Effective Date:	2020-07-24
Revision No:	2	Supersedes:	1
Revise By:	2022-07-24		

1. <u>OBJECTIVE:</u>	This defines the aim of the SOP and what it needs to achieve.
2. <u>SCOPE:</u>	This defines the area covered by the specific SOP.
3. <u>RESPONSIBILITY:</u>	Names/designations of persons responsible for ensuring SOP is put in place to achieve the outcome.
4. <u>POLICY:</u>	General policy statements of the company pertaining to the specific SOP to ensure that the reader will be able to grasp the principles applicable.
5. <u>PROCEDURE:</u>	The actual steps to be followed in order to accomplish the goal, written in a clear, concise style.
6. <u>ATTACHMENTS:</u>	Examples (exhibits) of documents required to be used in carrying out the specific SOP. These include master templates of protocols to be issued as Authorised copies, for use in the facility.

5.1.3 Attachment 6.1 is a table reflecting the SOP Amendment History.

5.1.4 Distribution of SOPs will be recorded on Attachment 6.2 Distribution List of Standard Operating Procedures, to ensure that the current version is distributed to the correct department.

5.1.5 SOPs shall be written in the imperative as numbered steps.

5.1.6 Language used shall be clear and precise, easy to understand, and unambiguous. English shall be the language of preference.

5.1.7 SOPs shall be readily available to all concerned in order to carry out instructions.

5.1.8 Entries shall be made in an indelible medium such as black ink. No unauthorised changes shall be made, and no correction fluid shall be used.

SOP No:	1-DOC-001	Effective Date:	2020-07-24
Revision No:	2	Supersedes:	1
Revise By:	2022-07-24		

5.1.9 Procedures are dynamic and need to be updated as and when circumstances demand.

5.2 Creation of New Standard Operating Procedures:

- 5.2.1 Any person may identify the need to establish/create an SOP.
- 5.2.2 The AR must be informed of the intention to compile an SOP, unless initiated by the AR.
- 5.2.3 The AR will ensure that the SOP is written in accordance with the requirements as set out in this SOP.
- 5.2.4 The new SOP will be reviewed and signed by three personnel: Compiler; Person authorising the SOP; Approver- the AR.
- 5.2.5 The AR will complete the SOP Amendment History table, with the Version Number: 1, Supersedes: N/A, Effective date: Date approved and Reason for Change: First version.

5.3 Updating of Standard Operating Procedures

- 5.3.1 Any person may request that a SOP be modified in order to render it more meaningful, to gain more clarity, or to reflect changes to the procedure.
- 5.3.2 Such a person will discuss the amendments with the QAM, Head of Department or AR.
- 5.3.3 The QAM will raise a Change Control protocol in order to clearly document the changes and provide reasons for the change. Refer to SOP: 4-FPH-007 Procedure for Change Control.
- 5.3.4 All procedures shall be reviewed at least once every three years. The QAM will maintain a schedule of a SOP Revision due date and schedule the review and updating process two months prior to the revised by date on each SOP.
- 5.3.5 The date of approval of the new Revision becomes the new effective date on the SOP. A record of revisions shall be kept for each SOP. The AR will complete

the SOP Amendment History table with the next Version Number: e.g. 2.
Supersedes: e.g. 1, Effective Date: Date Approved and Reason for Change:
provide a brief summary of the change.

- 5.3.6 Obsolete documents will be removed from use and destroyed. However the master file will retain a copy of each version for reference purposes.
- 5.3.7 SOP: 1-DOC-002 Distribution Control of SOPs shall ensure that obsolete masters are replaced to prevent the inadvertent use of superseded documents. Obsolete masters will be archived for a period of 5 years.
- 5.3.8 All personnel shall be trained on all SOPs relevant to their job description.

LIST OF ABBREVIATIONS

AR	Authorised Representative
SOP	Standard Operating Procedure
FM	Facility Manager
QAM	Quality Assurance Manager

1. OBJECTIVE:

To ensure that the copying and distribution of Standard Operating Procedures is properly controlled, recorded and the whereabouts of SOPs is accounted for.

2. SCOPE:

The scope of this procedure covers the distribution control of all SOP's in the facility.

3. RESPONSIBILITY:

AR	Authorised Representative
QAM	Quality Assurance Manager

4. POLICY:

4.1 The master file of all Standard Operating Procedures shall be kept by the AR who may delegate this responsibility to the QAM where required.

4.2 Only authorised copies (clearly marked as such) of SOPs required by department's personnel shall be distributed according to correct procedure and recorded.

4.3 Superseded SOPs shall be withdrawn and accounted for.

4.4 Unauthorised persons shall not make copies of any SOP, or be in possession of same.

- 5.1 Only the AR or QAM may make copies of an SOP and distribute these to the person or department requiring them.
- 5.2 A photocopy will be made of the original MASTER SOP. The copy must be clearly marked "AUTHORISED COPY" in Green Ink.
- 5.3 Each copy is numbered according to the Distribution List of SOPs. For example, the first person on the list will receive copy 1.
- 5.4 The copy number is recorded on the bottom left hand corner of the SOP.
- 5.5 The QAM will record the information regarding the copies made on Attachment 6.2: Distribution List of SOPs.
- 5.6 When an updated version of an SOP is approved, the QAM refers to the Distribution List of SOPs and retrieves all issued copies of the now obsolete version. These copies will be destroyed by the QAM.
- 5.7 The QAM will issue authorised copies of the updated SOP to the relevant person or department and update the Distribution List accordingly.

ABBREVIATIONS

QAM	Quality Assurance Manager
AR	Authorised Representative
SOP	Standard Operating Procedure
GAP	Good Agricultural Practice
GMP	Good Manufacturing Practice

1. OBJECTIVE:

To ensure that documentation in use, including paper-based and electronic copies, are valid, authorised, current and secure.

2. SCOPE:

This SOP applies to all ILCO Farming Master Documentation and Standard Operating Procedures and working documents such as templates, forms and printouts.

3. RESPONSIBILITY:

AR	Authorised Representative
QAM	Quality Assurance Manager

4. POLICY:

- 4.1 Appropriate controls will be in place to ensure the integrity of the records throughout the retention period. Good documentation is an essential part of the quality management system.
- 4.2 The reproduction of working documents from the master documents will not permit any error to be introduced during the reproduction process.
- 4.3 Documents will be uniquely identified, issued by the QAM/AR with clear identification of approval for use.

Revise By:	2022-07-24		

4.4 No hand-written documentation is permitted. However, where documents require the entry of data, sufficient space is provided for such entries.

5. PROCEDURE:

5.1 Master Documentation

5.1.1 The various types of master documents used at ILCO Farming consist of the following:

- Site Mater File – a document describing the GAP or GMP related activities of the Facility.
- Specifications – these describe in detail the requirements with which the products or materials used or produced have to conform. These include all starting materials, packaging materials, printed artwork and finished products.
- Manufacturing Processing formulae, Packaging and Testing Instructions- Provide detail on how to handle, process, pack and test each product. Step-by-step protocols are compiled in the Master Processing and Packaging Records. An authorised copy will be issued by the QAM to each batch to be processed and packed, i.e. the Batch Processing /Packaging Record (BPR). The contract Quality Control Laboratory will maintain the master testing analysis record and will compile a Certificate of Analysis (COA) for each batch once tested.
- SOPs: SOPs give direction for performing certain operation. ILCO Farming maintains the following groups of SOPs-
 - 1- Document Handling
 - 2- Legal Compliance
 - 3- Cannabis Cultivation and Inventory
 - 4- General Facility and Product Handling
 - 5- GMP (applicable for full GMP pharmaceutical sites)
 - 6- Security

Refer to SOP: 1-DOC-001 Procedure for Creation and Updating of SOPs and SOP: 1-DOC-002 Procedure for Distribution Control of SOPs.

Revision No:	2	Supersedes:	1		
Revise By:	2022-07-24				

- Protocols – these provide instructions for performing and recording the specific operation and are issued as authorised copies of attachments in the relevant SOP.

- 5.1.2 Records and Reports will be generated based on the using authorised copies of the master documentation.
- 5.1.3 Access to the master documentation is restricted to the AR and QAM.
- 5.1.4 Any change required will follow the SOP: 4-FPH-007 Procedure for Change Control. No change is permitted prior to the change control being reviewed with final approval by the AR.
- 5.1.5 Each master document will have a unique number assigned to it.
- 5.1.6 Master documentation will be revised on a periodic basis not exceeding every three years from the effective date.
- 5.1.7 A copy of each version of each master document will be retained for a minimum of five years.

5.2 Good Documentation Practices:

- 5.2.1 Where paper copies of the master documents are required, the QAM will print a copy and stamp this copy in red, with "Original Document" in the top right-hand corner and initial and date it.
- 5.2.2 The original documents are files in the Master Documents files and stored in an access-controlled area only accessible to the AR and QAM.
- 5.2.3 The AR / QAM will be permitted to make copies of the master document in green with "Authorised Copy" in the top right-hand corner next to the Originals Document stamp, initial and date it.
- 5.2.4 Records and entries will be made and completed at the time each action is taken and in full to ensure traceability and accuracy.

Revision No:	2	Supersedes:	1		
Revise By:	2022-07-24				

5.2.5 Alterations to an entry on a document will be neatly crossed through, the new entry clearly written, signed and dated. Where appropriate, the reason for the alteration is recorded.

5.2.6 No hand-written master documentation is permitted to be used.

5.3 Electronic master documentation:

- 5.3.1 Some or all master documentation may be stored electronically without use of paper-based documents. Such systems will be access-controlled with authorised personnel specified in the responsibility section of the SOP.
- 5.3.2 ILCO Farming will validate the access controls to ensure that only the authorised personnel are able to access, change, approve and copy electronic master documentation.
- 5.3.3 The AR / QAM will assign "read only" access to relevant personnel where required.
- 5.3.4 The electronic master documentation is kept secure. Refer to SOP: 5-SEC-004 Procedure for Information System Security.

FM	Facility Manager
AR	Authorised Representative
SOP	Standard Operating Procedure

1. OBJECTIVE:

To ensure that the company organogram is always reflecting the latest and correct information regarding key personnel and reporting structures.

2. SCOPE:

The scope of this SOP covers the organogram for ILCO Farming

3. RESPONSIBILITY:

Authorised Representative (AR).
Facility Manager (FM).

4. POLICY:

1. The company organogram must clearly reflect positions of key personnel as well as reporting lines.
2. The organogram must be updated in the event that a key member present on the current organogram is no longer an employee or if the reporting line changes.
3. The company organogram must be approved by the AR and be clearly visible to all personnel.

5. PROCEDURE:

1. Amend the organogram immediately when there are any changes in the company structure and replace with new version.
Refer to Attachment 6.3.
