PROCEDURE FOR TESTING REQUIREMENTS

SOP No:	4-FPH-016	Effective Date:	2020-05-18
Revision No:	2	Supersedes:	1
Revise By:	2022-05-18		

Chemical Name	CAS No.	Action Level for Medicinal Cannabis Goods Meant for Inhalation (ppm)	Action Level for All Other Medicinal Cannabis-Infused Goods (ppm)
1,2-Dichloroethane	107-06-2	2	5
Acetone	67-64-1	750	5000
Acetonitrile	75-05-8	60	410
Benzene	71-43-2	1	2
Butane	106-97-8	800	5000
Chloroform	67-66-3	2	60
Ethanol	64-17-5	1000	5000
Ethyl acetate	141-78-6	400	5000
Ethyl ether	60-29-7	500	5000
Ethylene oxide	75-21-8	5	50
Heptane	142-82-5	500	5000
Hexane	110-54-3	50	290
Isopropyl alcohol	67-63-0	500	5000
Methanol	67-56-1	250	3000
Methylene chloride	75-09-2	125	600
Naphtha	8030-30-6	400	400
Pentane	109-66-0	750	5000
Petroleum ether	8032-32-4	400	400
Propane	74-98-6	2100	5000
Trichloroethylene	79-01-6	25	80

5.7 RESIDUAL PESTICIDE TESTS:

- 5.7.1 The contract testing laboratory shall test all samples for residual pesticides.
- 5.7.2 Medicinal cannabis goods must not contain levels of pesticides above those listed in the below table.
- 5.7.3 The laboratory shall report the levels detected in parts per million (ppm) to 3 significant figures in the certificate of analysis. If a sample is found to contain pesticides above the allowable amount listed in the table below, the sample "fails" pesticide testing.
- 5.7.4 If the sample fails pesticide testing, the batch fails laboratory testing and may not be released for sale to the contracted customer.

Category 2 Pesticides	Edible Cannabis Products (ppm)	Dried Cannabis Flowers (ppm)	All Other Processed Cannabis (ppm)
Abamectin	0.02	0.02	0.02

5.8 MICROBIOLOGICAL IMPURITIES TESTS:

5.8.1 A contract testing laboratory shall test all samples for microbiological impurities.

5.8.2 For the purposes of microbiological testing, the laboratory shall report that the sample "passed" microbiological-impurity testing if the following are not detected:

- Shiga toxin-producing Escherichia coli: not detected in 1 gram.
- Salmonella spp.: not detected in 1 gram.

5.8.3 If the strains are detected, the batch fails laboratory testing and may not be released for sale to the contracted customer.

- 5.8.4 A contract laboratory is also required to test for the pathogenic *Aspergillus* species *A. fumigatus*, *A. flavus*, *A. niger*, and *A. terreus* in all medicinal cannabis goods intended for consumption by inhalation, including but not limited to dried flower.
- 5.8.5 For the purpose of pathogenic *Aspergillus*-species testing, the laboratory shall report that the sample "passed" if the concentrations of the following *Aspergillus* species are not detected:
- *Aspergillus fumigatus*: not detected in 1 gram.
 - *Aspergillus flavus*: not detected in 1 gram.
 - *Aspergillus niger*: not detected in 1 gram.
 - *Aspergillus terreus*: not detected in 1 gram.
- 5.8.6 If a pathogenic *Aspergillus* species is detected in a sample under (c)(1), the sample fails microbiological-impurity testing, and the batch fails laboratory testing and may not be released for sale to the contracted customer.
- 5.8.7 The contract laboratory may test for and provide test results for additional microorganisms if requested by the requester of ILCO Farming (Pty) Ltd.

5.9 Moisture Content Tests:

- 5.9.1 A laboratory shall analyze a dried flower batch sample to determine its moisture content. If the moisture content is at its pre-determined specification, such as 5.0 % to 13.0 %, the sample "passes" moisture-content testing.
- 5.9.2 The laboratory shall report the moisture content in percentage to the nearest tenth of one percent, by weight, of the dry sample. The laboratory shall report this information in the certificate of analysis.
- 5.9.3 If a sample "fails" moisture-content testing, the batch may be reprocessed for further drying and curing by ILCO Farming (Pty) Ltd. unless prohibited. The processed batch will be fully retested.

5.10 FILTH AND FOREIGN MATERIAL TESTS:

- 5.10.1 A laboratory shall analyze all samples for filth and foreign material present in the sample. "Filth and foreign material" includes but is not limited to hair, insects, faeces, packaging contaminants and manufacturing waste and by-products.
- 5.10.2 The laboratory shall report that the sample "passed" filth and foreign material testing if the concentration of filth and foreign material is zero.

SOP No:	4-FPH-016	Effective Date:	2020-05-18
Revision No:	2	Supersedes:	1
Revise By:	2022-05-18		

5.10.3 The laboratory shall report in the certificate of analysis whether the sample “passed” or “failed” filth and foreign-material testing. A batch that fails must be destroyed unless it can be remediated. Failed manufactured cannabis batches must be destroyed.

5.11 HEAVY METALS TESTS:

5.11.1 The contract laboratory shall analyze all samples for concentrations of the following heavy metals or as per the customer’s requirements:

- Arsenic (As).
- Cadmium (Cd).
- Lead (Pb).
- Mercury (Hg).

5.11.2 The contract laboratory shall report the concentration of each heavy metal listed above in micrograms per gram (µg/g) in the certificate of analysis. The laboratory shall report that the sample “passed” heavy-metal testing if the concentrations of heavy metals listed in subsection below are below heavy metal action levels.

Heavy Metal	Action Level for Medicinal Edible Cannabis Products, Suppositories, Sublingual Products, and Other Manufactured Products (µg/g)	Action Level for All Inhaled Medicinal Cannabis Goods (µg/g)	Action Level for Topical and Transdermal Medicinal Cannabis Goods (µg/g)
Cadmium	0.5	0.2	5
Lead	0.5	0.5	10
Arsenic	1.5	0.2	3
Mercury	3	0.1	1
