PROCEDURE FOR SECURITY FOR INVENTORY DISPATCH

SOP No:	5-SEC-005	Effective Date:	2020-05-20
Revision No:	2	Supersedes:	1
Revise By:	2022-05-20		

- 5.1.4 Product will be moved into locked steel mesh cage.
- 5.1.5 The vehicle comes through the same security protocols to the dispatch area.
- 5.1.6 The doors are interlocking systems.
- 5.1.7 Product will be checked and signed before loading into vehicle.
- 5.1.8 Vehicle will not be allowed to leave premises until validation is received for AR or DAR.
- 5.1.9 All products will be offloaded from the cultivation facility to the vehicle.
- 5.1.10 Vehicle to proceed to the designated drop-off locations.
- 5.1.11 Sealed and locked containers will be used for the product being transported.
- 5.1.12 Access to the container will require both combination input on an electronic keypad and a physical key.
- 5.1.13 Deliveries and receiving will only take place between 8:00 a.m. and 3:00 p.m. Monday to Friday.
- 5.1.14 These time parameters exceed DOH requirements and will ensure for compliance even in the face of unexpected circumstances.

5.2 Tracking:

- 5.2.1 Deliveries will be made only within South Africa which we confirm by requiring submission of GPS tracking records.
- 5.2.2 All transport vehicles will be equipped with GPS monitoring and will be required to update the cultivation facility upon every completed delivery.
- 5.2.3 We will require the use of a real-time wireless reporting of all deliveries to monitor delivery, which we believe will help prevent diversion during the delivery process.
- 5.2.4 It also will allow us to track the location and delivery time of products.

5.3 Secured Inventory:

- 5.3.1 Vehicles will be equipped with either a secure lockbox or locking cargo area.
- 5.3.2 Vehicles will not have any Medical Cannabis identification, and no medicine or paraphernalia will be visible.
- 5.3.3 Once product is loaded the vehicle will be sealed with a tamper proof lock.
- 5.3.4 The transport vehicles will be newer model and temperature controlled.
- 5.3.5 Products remain in the locked transport container during transport.
- 5.3.6 The incoming container will be removed from the delivery vehicle under the supervision of the AR or DAR.
