STANDARD OPERATING PROCEDURE

PROCEDURE FOR FACILITY SECURITY

Page 2 of 7

SOP No:	5-SEC-001	Effective Date:	2020-05-15
Revision No:	3	Supersedes:	2
Revise By:	2022-05-15		

We have contracted with a security company as the agent in charge of security for all cultivation and processing operations. The security company will oversee responsibility for the implementation of the Security Master Plan. As the security company responsible for implementation, they will also serve as a liaison with the executive staff and board. In addition, they will oversee responsibility to review and update the security plan on a regular basis (at intervals of six months) to ensure continued compliance with the SAPHRA guidelines, rules, and regulations.

The security company is to be based on site, including security personnel as well as trained dogs housed in on-site kennels.

Our Security Plan is divided into two components:

- *Facility Security*
- *Operations Security*

5. PROCEDURE:

5.1 Facility Security

5.1.1 The security at our facility is designed to reduce the likelihood of security breaches and trigger an immediate response in the event a breach does occur.

5.1.2 The main gate at the first entrance is guarded and maintained by the security company contracted to ILCO Farming (Pty) Ltd

5.1.3 The security company controls who enters the property.

5.1.4 The security guard will only allow visitors in when notified by the receptionist.

5.1.5 There is a secondary security gate controlled by the security company before entering the parking bay.

5.1.6 The cultivation and processing facility is constructed such that no external windows can open.

5.1.7 All doors to access the facility have biometrics installed.

Revise By:	2022-05-15		

5.2 Operations Security

- 5.2.1 Areas where medicinal cannabis will be stored or handled have no external doors or windows and can be accessed only from within the facility.
- 5.2.2 Controlled access will be implemented and supported with Thorburn security systems on entrance doors and controlled fingerprints.
- 5.2.3 All guests will be supervised by a Senior Manager and will not be loaded on the fingerprint database.
- 5.2.4 Visitors will be issued with a Visitor identification badge to differentiate from site personnel.
- 5.2.5 This configuration yields optimal conditions for surveillance. These existing design elements will not only make unauthorized access extremely unlikely, but also act as a deterrent discouraging theft.
- 5.2.6 Cameras have been installed to ensure surveillance of all angles of the property to ensure no blind spots.
- 5.2.7 The lights around the exterior are 600-watt lighting (flood lights).
- 5.2.8 All exterior lighting is triggered by motion detectors.
- 5.2.9 The entire facility and all walkways will be well illuminated to maximize visibility. Lighting will be operated automatically by a photo-sensor, ensuring that lighting will always be optimal for video capture.
- 5.2.10 During operating hours, there will be 2 on-site security guards - one at the cultivation entrance and one patrolling security guard with a dog present at the facility.
- 5.2.11 After hours there will be a total of two site security guards and one dog on duty at the facility.

LIST OF ABBREVIATIONS

GAP	Good Agriculture Practice
GSP	Good Storage Practice
AR	Authorised Representative
SOP	Standard Operating Procedure

1. OBJECTIVE:

To ensure that all ILCO Farming (Pty) Ltd. personnel adhere to standard procedures of operations security in the workplace.

2. SCOPE:

This SOP pertains to all current employees within the facility. New employees will receive training on operations security during induction.

3. RESPONSIBILITY:

AR	Authorised Representative
HOD	Heads of Departments

4. POLICY:

ILCO Farming (Pty) Ltd. Has implemented rigorous processes to ensure that personnel are appropriately vetted prior to employment. This process is also applied to contractors who regularly work in the facility. Personnel records will be maintained with comprehensive data on each employees personal particulars, training, access procedures and acceptance of the facility's terms and conditions of employment. ILCO Farming (Pty) Ltd. Have clear processes in place to address workplace safety and accident prevention, as well as emergency and hazard response processes. Screening employees for criminal records and following consistent, proactive operational security policies and procedures greatly reduce the likelihood that emergencies will arise.

5. PROCEDURE:

5.1 Background screening

- 5.1.1 All persons employed at our organization will undergo background checks and screening for criminal records as well as adverse judgments regarding debt.
- 5.1.2 We will also perform background checks on any contractors or vendors who regularly work within the facility or will be employed there for an extended time.
- 5.1.3 Copies of any public records obtained through the background check process will be provided to the individuals concerned.
- 5.1.4 To ensure transparency, the entire background checking process will be conducted by a third-party contracted to ILCO Farming (Pty) Ltd.
- 5.1.5 We will not employ anyone who has been convicted of a criminal offence except for the purposes of the medical cannabis Program as an excluded criminal offense.
- 5.1.6 We elect not to engage any contractors or vendors who would have access on a regular basis or for an extended time to restricted areas of our facility if they have been convicted of any excluded criminal offenses.
- 5.1.7 ILCO Farming (Pty) Ltd will ensure employees are at least 18 years of age.
- 5.1.8 ILCO Farming (Pty) Ltd will obtain age of applicant on each employee application.
- 5.1.9 A copy of applicant's valid, unexpired South Africa driver's license will be made and attached to each employment application.
- 5.1.10 Individuals will submit a full set of fingerprints to the department, vendor, entity, or agency authorized for processing by the government which may be forwarded to local law enforcement.

5.2 Personnel Records

- 5.2.1 We will maintain personnel records for each employee, agent, or volunteer that includes:

- Application
- Documentation of all required training
- A signed statement from the individual indicating the date, time, and place that he or she received training and the topics discussed, including the name and title of the presenters
- Record of any disciplinary action taken against employee at any time during employment
- These personnel records will be maintained for a period of at least six months past the end of the individual's affiliation with ILCO Farming (Pty) Ltd.

5.3 Training and Drills

- 5.3.1 Personnel must receive appropriate training before performing the tasks given to them.
- 5.3.2 Production personnel must be trained in the production techniques used. Security and emergency response training is only part of the comprehensive training required for all employees.
- 5.3.3 Training will also cover:
 - Cannabis laws and regulations,
 - Personal safety, fire safety, and crime prevention,
 - Basics of Medical Cannabis Cultivation,
 - Harvesting and Trimming of Medical Cannabis.
- 5.3.4 All staff will also go through periodic refresher training sessions, as well as new training on any policy updates or changes in procedure.
- 5.3.5 All emergency procedures will be rehearsed in periodic drills.
- 5.3.6 written in plain English and presented in an easy-to-use outline format, explaining all our operational, safety, and security policies and protocols.

5.4 Business Hours

- 5.4.1 Our cultivation facility shall not be open to the public.
- 5.4.2 The cultivation facility will operate standard hours of work, from 8am – 5pm Monday to Friday.
- 5.4.3 ILCO Farming (Pty) Ltd. shall only permit Senior Managers to be able to access the facility at any time regardless of Business hours.

5.5 Security of access and Biometrics

- 5.5.1 Biometric technology has been implemented to secure the facility.
- 5.5.2 Upon termination of employment to secure the licensed premises on termination of employment fingerprint access will be deleted from the system to uphold security measures to the facility.
- 5.5.3 It is the Policy of ILCO Farming (Pty) Ltd. to maintain the biometric access to any enclosed area.
- 5.5.4 Authorised representative and Deputy Authorised representative of ILCO Farming (Pty) Ltd. will add fingerprint access to designated employees.
- 5.5.5 This fingerprint access will be used exclusively for the opening of exterior and interior doors at the opening of each business day and to secure the premises at the close of each business day.

SOP No:	5-SEC-003	Effective Date:	2020-05-15
Revision No:	3	Supersedes:	2
Revise By:	2022-05-15		

- 5.5.6 When the fingerprints are loaded onto biometrics for an employee, the "Biometric Distribution" form will be completed, updated for any changes, and kept in the employee's file and a copy placed in "Biometric Distribution file".
- 5.5.7 This form shall be time and date stamped and is signed by the employee acknowledging the receipt of access granted, explicit use of Biometrics and policy to contact management immediately if biometrics is ever compromised.
- 5.5.8 Employee agrees to use biometrics exclusively for intended purpose and will not share access with other employees without exclusive permission by ILCO Farming (Pty) Ltd in the event of an unusual circumstance.
- 5.5.9 Employee will not attempt to damage or interfere with the biometric system.
- 5.5.10 Employee understands that there will be a periodic inspection to assure employees fingerprints are valid and up to date.
- 5.5.11 Employee agrees to keep the biometric system access to themselves as not affect the security measures of ILCO Farming (Pty) Ltd.
- 5.5.12 The tampering of Biometrics will result in immediate termination.

5.6 Workplace Safety and Accident Prevention

- 5.6.1 A Workplace Accident and Injury Reduction Program will be put in place to ensure the appropriate controls are in place to maintain internal safety.
- 5.6.2 The Facility Manager will have authority and responsibility for the overall implementation and execution of the program.
- 5.6.3 All Managers and Team Leads will be charged with maintaining safe working conditions through the policy described below.
- 5.6.4 The Facility Manager will be responsible for ensuring the complete and thorough implementation of all internal safety procedures related to employees. Below is a summary of the Facility Manager's Responsibilities.
- 5.6.5 Create a start-up checklist of safety hazards to monitor and determine the correct method for compliance.
- 5.6.6 Perform all the tasks identified on the start-up checklist.
- 5.6.7 Ensure that the person responsible for completing each corrective action is clearly documented.
- 5.6.8 Report to the Authorised Representative any required corrective actions that are not completed in a timely manner.
- 5.6.9 All injuries and fatalities will be reported in accordance with South African Law.
- 5.6.10 Notify the appropriate accident investigator of all accidents, injuries, illnesses and near miss incidents.
- 5.6.11 File documentation of completed investigations in the [Accident Investigations] folder.

- 5.6.12 Ensure that all team leads, and managers are aware of their responsibilities under this Workplace Accident and Injury Reduction Program.
- 5.6.13 Ensure that all team leads, and managers are aware of the hazards to which their employees may be exposed and the controls necessary for their employees to work safely.
- 5.6.14 Provide employees with a copy of the Code of Safe Practices and perform all of the training required.
- 5.6.15 Perform additional training if employees are given new job assignments with additional hazards, when new substances, processes, procedures or equipment are introduced into the work area, and when new workplace hazards are recognized.
- 5.6.16 Have the employee date and sign a copy of the safety training certification (at the bottom of the training requirements form). File the completed form in the [Safety Training] folder.
- 5.6.17 Ensure that all employees receive initial safety training when this Workplace Accident and Injury Reduction Program are first established.
- 5.6.18 Review the effectiveness of this program every year by completing the Program Review Checklist. Report the results of the review to the Authorised representative.
- 5.6.19 Ensure that all safety inspections which are not performed by the safety committee are provided to the safety committee for review
- 5.6.20 Ensure that the results of third-party safety inspections (e.g. government, insurance company, etc.) are provided to the safety committee for review.
- 5.6.21 Review all safety inspection checklists to verify that all hazards identified during the inspection have been corrected.
- 5.6.22 Provide copies of the inspection checklists to the Safety Committee for discussion at the next meeting.
- 5.6.23 Discipline employees who do not comply with the Code of Safe Practices or behave unsafely in accordance with company discipline policy.
- 5.6.24 At a minimum, discipline must include:
- Verbal warning and retraining for first offense.
 - Written warning for second offense (place copy in employee's personnel file).
 - Suspension without pay or termination for subsequent offenses Refusal to Perform Dangerous Work and Reporting Dangerous Condition.
 - Do not sanction employees who refuse work in dangerous conditions until the hazards are corrected. Do not sanction or retaliate against employees who report workplace

hazards in any way; they are required to do so by this program.

5.7 Emergency and hazard response

- 5.7.1 In the event of an imminent hazard, which cannot be corrected immediately, stop work, and remove all exposed personnel from the area.
- 5.7.2 Ensure that all employees assigned to correct the hazard are provided all necessary safeguards. Report imminent hazard events to the Workplace Accident and Injury Reduction Facility Manager.
- 5.7.3 Notify the Workplace Accident and Injury Reduction Facility Manager of all changes to the work environment which affect the hazards to which employees are exposed or the methods used to protect employees from those hazards.
- 5.7.4 This Workplace Accident and Injury Reduction Program may need to be updated to accommodate the process changes.
- 5.7.5 All employees must work safely and follow all safety rules.
- 5.7.6 ILCO Farming (Pty) Ltd will have a written Workplace Accident and Injury Reduction Program that describes in detail the policies and procedures which are used to provide a safe workplace.
- 5.7.7 All employees must immediately report unsafe conditions or near misses to any manager or supervisor, the Workplace Accident and Injury Reduction Facility Manager, or any safety committee member.
- 5.7.8 A near miss is an incident where someone could have been hurt but wasn't this time. It is important to correct unsafe conditions or procedures before someone is hurt.
- 5.7.9 Employees must report all injuries (no matter how minor) to their supervisor so that arrangements can be made for medical or first aid treatment.
- 5.7.10 This includes illness or aches and pains that the employee thinks may be work related and that don't go away normally.
- 5.7.11 Do not disturb or cleanup the scene of a serious accident (except to aid injured people or make the area safe) until an accident investigation has been completed.
- 5.7.12 Employees shall not work when impaired by fatigue, illness, medication, or intoxicating substances such as alcohol.
- 5.7.13 The use illegal drugs are strictly prohibited.
- 5.7.14 Keep your work area tidy and free from unnecessary clutter and trip hazards. Clean up spills as soon as possible.

SOP No:	5-SEC-003	Effective Date:	2020-05-15
Revision No:	3	Supersedes:	2
Revise By:	2022-05-15		

- 5.7.15 Violence, threats of violence, and physical intimidation are prohibited. Employees who feel that a company employee, customer, or client is potentially violent must immediately report their concerns to any manager or supervisor, the Workplace Accident and Injury Reduction Facility Manager, or any safety committee member.
- 5.7.16 Employees who experience violence on the job or are threatened or experience physical or verbal intimidation must report this to their supervisor immediately.
- 5.7.17 Do not use a fire extinguisher unless you have been trained to do so.
- 5.7.18 Do not use a fire extinguisher to fight a fire unless you are very confident the extinguisher will safely put the fire out. Instead, report fires to your supervisor, and evacuate the building and summon the fire department if necessary.
- 5.7.19 Always wear your eye protection when required. There are many types of eye protection available, tell your supervisor if your eye protection distorts your vision or gives you headaches.
- 5.7.20 Employees should take time to set up their computer comfortably.
- 5.7.21 The keyboard and monitor should be directly in front of them so that they can work without twisting.
- 5.7.22 The keyboard should be just below elbow height when sitting with their shoulders and arms relaxed at their sides.
- 5.7.23 The top of the monitor screen should not be above eye level. If necessary, employees should raise their seats and use a footrest if their feet don't rest flat on the ground.
- 5.7.24 Employees should request a split keyboard or alternative mouse if their existing equipment generates wrist or arm discomfort.
- 5.7.25 Employees should arrange their workspace so that there is not excessive glare on their monitor screen from lights or windows.
- 5.7.26 Employees must strictly follow all security procedures.
- 5.7.27 Report any security lapses to your supervisor immediately. In the Event of a Robbery - Remain calm.
- 5.7.28 Never use electrical equipment unless the power cord and grounding plug (if present) are in good condition.
- 5.7.29 Never use equipment that shocks you, even the small shock from a minor short will get worse in time.
- 5.7.30 Report all problems with electrical equipment to your supervisor.

- 5.7.31 Your supervisor will provide additional information regarding emergency evacuation procedures and any additional hazards or working procedures specific to your work area.
- 5.7.32 Never start working on a task until you have been fully trained on the safety requirements and your supervisor has cleared you to begin.
- 5.7.33 ILCO Farming (Pty) Ltd will have an emergency response team who will manage all aspects of the given emergency.
- 5.7.34 Initial emergency protocols are should always be followed first (security system activated, 10111 called, etc.). Once an emergency is identified, the team will be responsible for communication to leadership, employees, and the community.
- 5.7.35 The responsibilities for emergency communications are outlined below:
- Launch immediately after an emergency is identified.
 - Provide a brief to Senior Management on the situation.
 - Identify and brief the Facility Manager of the situation.
 - Employee contacts will be stored in a single location and we will utilize a phone tree to cascade down relevant information to employees.
 - Communicate situation information and procedural instructions to employees and other stakeholders.
 - Communicate with employee families and the local community.
 - Continually adapt to changing events associated with the emergency.
- 5.7.36 In the event of an emergency, the building may require evacuation. Situations requiring evacuation could be, but are not limited to the following:
- Natural gas leak.
 - Flammable liquid spill/and or release.
 - Power line failure.
 - Robbery/Hostage situation.
 - Hazardous chemical spill/and or release.
 - Flooding.
 - Fire alarm.
 - Explosion.
- 5.7.37 All building evacuations will occur when an alarm sounds and/or upon notification by ILCO Farming (Pty) Ltd, Police Officer, or Fire Department personnel.
- 5.7.38 When the building evacuation alarm is activated during an emergency, leave by the nearest marked exit and alert others to do the same.

- 5.7.39 Assist persons with disabilities in exiting the building. Two or three individuals may carry the persons with disabilities.
- 5.7.40 Once outside, proceed to the designated gathering point.
- 5.7.41 This should be a clear area that is at least 20 meters or further, depending on the type of incident, away from the affected building. Stay there.
- 5.7.42 This designated area should be pre-determined by the Authorised Representative or supervisor.
- 5.7.43 Keep streets, fire lanes, hydrant areas, and walkways clear for emergency vehicles and personnel. Know your area assembly points.
- 5.7.44 Immediately notify emergency personnel of any injured persons and individuals remaining, in the affected building.
- 5.7.45 Do not return to an evacuated building unless told to do so by emergency personnel.

5.8 Access for Emergency Response Units:

5.8.1 Security Scenarios and Response

Scenario	Response
Robbery	● In the event of a robbery, all employees should remain calm and cooperate with the robber. ● If they are able to access the security system unnoticed without risk to their safety, they should do so. ● If they cannot access the security system, then they should continue to cooperate until the robber leaves. At that point, immediately activate the security system and/or dial 10111.
Data Breach	● If a data breach is identified, the IT partners who manage the network should be contacted. ● Employees should identify what data was stolen and understand specifically what information was lost in the breach. ● Change all passwords. ● Contact relevant financial institutions if banking information is compromised.
Theft	● If theft is identified, it should be immediately reported to a supervisor for investigation. The supervisor should identify what is missing and review security footage for breaches. ● If cannabis product is missing, it should be reported to the local authorities.

Workplace Accident

- In the event of a critical workplace accident, the alarm should be sounded right away and dial 10111. After this, the workplace accidents should immediately be reported to a supervisor.

Chemical Contact with Eyes

- Individuals should immediately proceed to the eyewash station to begin rinsing procedures.
- In the event of critical injury, 10111 should be dialed for emergency medical assistance.
- The supervisor should be contacted to investigate.

Chemical Spill on a Person

- Individuals should immediately proceed safety shower to begin rinsing procedures.
- In the event of critical injury, 10111 should be dialed for emergency medical assistance.
- The supervisor should be contacted to investigate.

Fire

- In the event of a fire, employees should refer the Fire Plan located in [Section 5](#) of this document. Generally speaking, employees should assist any person in immediate danger to safety
- Activate the building fire alarm system or notify the fire department by dialing 10111
- Only after having done these two things, if the fire is small, you may attempt to use an extinguisher to put it out. You should always be certain that you will not endanger yourself or others when attempting to put out a fire.
- The building should be evacuated

Power Outage

- The building will be equipped with back-up power so that the facility equipment and security systems will be on at all times 24/7

Gas Leak or Chemical Spill

- Alarm should be sounded, 10111 dialed, and the building evacuated.

Active Shooter

- Employees should Run/Escapes, hide if escape is not possible, and Fight as a last resort.
- As employees are able, the alarm should be sounded, and building evacuated
