

UAT Test Pack — QA & Processing

Work through each step in order. Tap “Go to” to open the exact screen, do the step, then tick **P** (pass) or **F** (fail). Be hard on it — that's the point.

Before UAT starts (FO sets up): (1) boards scoped so each tester sees only their own queue — not the whole farm's checklists; (2) at least one **batch in the processing stage** so per-batch forms appear; (3) Processing Supervisor login(s) provisioned; (4) testers have their credential sheet. All links open on tntilco.cleva-ai.co.za.

PART A — PROCESSING

Tester: Jeanette · jen@ilcofarming.co.za / 300300

#	TEST STEP	EXPECTED RESULT	GO TO	P / F
P1	Log in (email + PIN, one screen)	Lands on her board showing only her own tasks	➤ /login	P F
P2	Open today's daily form (Temp & Humidity Check — Processing)	Form opens, complete + sign off → done	➤ /tasks	P F
P3	Log a wet intake — Receiving Register	Intake recorded against a batch	➤ /processing	P F
P4	Wet Cannabis Flower Inspection on that batch	Per-batch form appears + saves to batch	➤ /processing	P F
P5	Capture Sample Moisture Readings	Readings recorded	➤ /processing	P F
P6	Trimming Dried Flower Batch Control	Trim record saved to batch	➤ /processing	P F
P7	Complete a Curing Record	Curing record saved	➤ /processing	P F
P8	Run the Batch Quality Check Register	Quality check saved	➤ /processing	P F
P9	Mark a quality FAIL on the check	Deviation auto-raises & routes to QA	➤ /processing	P F
P10	Record Bulk Storage Inventory	Stock recorded	➤ /processing	P F
P11	Log a Rejected Goods entry	Rejected goods recorded	➤ /processing	P F

PART B — QUALITY (QA)

Tester: Keke · keke@ilcofarming.co.za / 224466

#	TEST STEP	EXPECTED RESULT	GO TO	P / F
Q1	Log in → open the work board	Lands on the QA view — deviations + QA/Lab, not everyone's checklists	➤ /kanban	P F
Q2	Open the SOP register, acknowledge an SOP	Acknowledgement recorded against her name	➤ /sop-library	P F
Q3	Open the deviation raised in P9	Deviation details + source batch visible	➤ /kanban	P F
Q4	Approve the deviation (QA)	Card moves Raised → In Progress	➤ /kanban	P F
Q5	Try to close WITHOUT a CAPA, then WITH one	Blocked without CAPA; closes once CAPA added	➤ /kanban	P F
Q6	Open Equipment Calibration	Equipment + calibration due dates listed	➤ /qms	P F
Q7	Open the EU-GMP control registry	Controls mapped to their EU-GMP source	➤ /qms	P F
Q8	View QMS records	Records list shows + filters	➤ /qms	P F
Q9	Switch to the Oversight / All view	Sees whole facility — separate from her to-do	➤ /kanban	P F

Log every **F** with: what you did, what you expected, what happened (screenshots help). Hand back to FO.
