

Your UAT Test Sheet — Processing

Work through each test on your phone. Tick **Pass** if it works, or **Issue** and tell Flo what happened.

On your phone: open the website → browser menu → **Add to Home Screen** to install it like an app.

A · YOUR DAILY FORMS

#	DO THIS	EXPECTED	RESULT
1	Log in and open your task queue	You see today's processing forms (Temp & Humidity + the cleaning schedules you check)	☐ Pass ☐ Issue
2	Open Temperature & Humidity Check → fill the readings → enter your PIN to sign	The real fields show (8am / 11:50 / 16:50, desired vs actual). Saves + signs.	☐ Pass ☐ Issue
3	Open any Cleaning Schedule (e.g. Trimming Room) → tick the tasks → sign	The room's exact cleaning tasks show; saved as evidence with your name	☐ Pass ☐ Issue
4	Check a signed form is recorded	It shows as completed, timestamped, with your sign-off	☐ Pass ☐ Issue

B · YOUR PER-BATCH FORMS (APPEAR WHEN A REAL BATCH IS PROCESSED)

These fire automatically once the first harvest flows into processing — no need to create them. Confirm you can find them and that the fields match your paper forms:

- | | |
|--|--|
| <ul style="list-style-type: none"> Batch Quality Check Register (5-PDT-007) Wet Cannabis Flower Inspection (5-PDT-6) Curing Record Trimming Dried Flower Batch Control Sample Moisture Readings (5-PDT-003) | <ul style="list-style-type: none"> Sampling Room Register (5-PDT-003) Receiving Register (5-PDT-4) Rejected Goods Register (5-PDT-13) Return to Supplier (5-PDT-015) Bulk Storage Inventory |
|--|--|

C · QUALITY FAIL → AUTOMATIC DEVIATION

#	DO THIS	EXPECTED	RESULT
5	On a Batch Quality Check , mark FREE FROM BUDROT = NO or APPROVED = NO and sign off GMP · AUTO-DEVIATION	A Deviation report is raised automatically and you (PM), the FM and QA are notified — so a quality escape is never lost.	☐ Pass ☐ Issue

Found an issue? Note the test number + exactly what you tapped and what happened (a screenshot helps), and send it to Flo. We fix live, same day. **Note:** a full harvest→trim→cure→pack run needs a real batch, which comes after the first harvest — until then you're testing the forms + sign-off.
