

Your New Workflow — No More Paper

A simple guide to what changes, and exactly what you do each day.

THE OLD WAY

- Forms filled in by hand, all day
- Re-typed into spreadsheets at night
- Files in folders, hard to find
- Counts & sign-offs chased manually
- Re-typing the daily report every night

THE NEW WAY

- Staff capture on their phones, at the source
- It fills your dashboard **automatically**
- Everything searchable, in one place
- Counts reconciled, chickens verified in taps
- You just **review & sign** — done

The big idea: you stop being the person who *writes everything down*. The team captures their own work as they do it, and the system does the typing, filing and totalling for you. Your job becomes **checking and approving** — not re-doing.

Your Day in the App

MORNING — OPEN THE DASHBOARD

1

Open your Admin Dashboard

Log in once. You'll see today's tasks, anything overdue, and what needs your attention — all on one screen.

ADMIN DASHBOARD

2

Review today's grow schedule

The Grow Calendar shows what's planned today and which role is assigned. You see the day's cultivation plan at a glance.

GROW CALENDAR

3

See what needs your attention

Your dashboard home flags anything overdue or out-of-range — so you act on exceptions instead of hunting through paper.

ADMIN DASHBOARD

☀ DURING THE DAY — THE TEAM FEEDS THE SYSTEM

4

Cultivation captures on their phones

The Nursery Manager and cultivators record temperature, humidity, mortality, feeding and checks **as they happen**. You don't chase paper — it lands in your dashboard live.

AUTO — NOTHING FOR YOU TO TYPE

5

Verify the chicken crates

Each crate comes in with a photo. Swipe through the **Review Reel** and tap to verify — your daily egg/flock check, done in minutes.

CHICKENS › REVIEW REEL

6

Reconcile a count when you need to

If your physical count differs from the system, you adjust it and the change is logged with your name — a clean audit trail, automatically.

BAYGRID / STOCK

🌙 END OF DAY — REVIEW & SIGN

7

Sign off the day's forms

All the day's completed forms are waiting for your sign-off. Review, enter your PIN, done — that PIN signature becomes your compliance record.

TASKS › SIGN-OFF

8

The daily report writes itself

No more re-typing at night. The system builds the daily production summary from everything captured. You just check it and send.

Your role

Cultivation Admin · Chicken Farm Manager

Open my Dashboard →

Open Chicken Farm →

Tip: open the website on your phone → browser menu → **Add to Home Screen** to install it like an app.

Remember: if it used to be on paper, it now lives in the app — and most of it fills itself in. When in doubt, your dashboard's home screen shows you exactly what needs you today. You're never hunting through folders again.
