TnT-ZA — Training Day Pack

Onboarding the team onto the live farm operating system —
Owners · Facility Manager · Cultivation · Processing · QA

SITE: ILCO Farms · PLATFORM: **tntilco.cleva-ai.co.za** · Prepared 14 June 2026

1 · How everyone logs in & the master list

Everyone logs in the same way, on their **own phone or tablet**:

- 1. Go to **ntilco.cleva-ai.co.za**
- 2. Enter your **login email** (below) → tap send
- 3. Open the email → tap the gold “**Log in to ILCO**” button → enter the 6-digit PIN
- 4. You land on **your own dashboard**.

Testing note (Flo): every login PIN currently arrives in florisolivier7@gmail.com (the +role aliases). That lets you test every role yourself before the team uses it. Swap in each person’s real email before they self-serve.

Person	Role	Login email	Their dashboard / area
Coenie Venter	Owner	florisolivier7+coenie@gmail.com	Owner 360 (/owner)
Ilse Venter	Owner	florisolivier7+ilse@gmail.com	Owner 360 (+ Chickens unit)
Ray	Facility Manager	florisolivier7+ray@gmail.com	FM — tickets, approvals, shifts
Lou	Cultivation	florisolivier7+lou@gmail.com	Cultivation — plants, daily checks
JR Botha	Processing	florisolivier7+jr@gmail.com	Processing — weigh / grade
Keke	QA	florisolivier7+keke@gmail.com	QA — COA / batch release

Owners — Coenie & Ilse

Login: florisolivier7+coenie@gmail.com / +ilse@

Owner 360

GUIDE

tntilco.cleva-ai.co.za/training/tenant-admin.html

DASHBOARD

tntilco.cleva-ai.co.za/owner

FIRST LOOK (NO FORM)

Walk the live tiles — Plants, Batches, Staff, Open Tickets — tap “**Generate brief**” for the AI morning summary, open the Compliance / SMF view. The point: **everything the team captures shows up here.**

Facility Manager — Ray

Login: florisolivier7+ray@gmail.com

FM

GUIDE

tntilco.cleva-ai.co.za/training/facility-manager.html

FIRST LIVE EXERCISE

Open the **ticket / task queue**, action one ticket, and review the approvals waiting on you. Ray also owns the **daily rhythm** (see the note on the run-sheet).

Cultivation — Lou

Login: florisolivier7+lou@gmail.com

Cultivation

GUIDE

tntilco.cleva-ai.co.za/training/cultivator.html

FIRST LIVE EXERCISE

Complete today's **Daily Check Sheet** (greenhouse / clone room) from your task list — that real entry is your data flowing into the owner view.

Processing — JR Botha

Login: florisolivier7+jr@gmail.com

Processing

GUIDE

tntilco.cleva-ai.co.za/training/processing.html

FIRST LIVE EXERCISE

Do one **weigh & grade** capture (A / B / Pops / Trim) on a batch — this is the yield number the owners and the financial model rely on.

QA — Keke

Login: florisolivier7+keke@gmail.com

QA · your GMP system

GUIDE

tntilco.cleva-ai.co.za/training/qa.html

FIRST LIVE EXERCISE

Review a batch and a **COA / release** step. Framing for Keke: **this is your GMP system** — every check you sign is the inspection evidence, in one place.

3 · Facilitator run-sheet (tomorrow)

Time	Session	What happens
20 min	Kickoff (all)	Why the system (compliance + the owner’s view), how to log in, a quick dashboard tour.
45 min	Role breakouts	Each person: read their guide (self-paced) + do their first live exercise (card above).
20 min	Owners	Coenie & Ilse — the Owner 360 walkthrough on mobile.
15 min	Wrap	Each role has logged ≥1 real record → show it appear on the Owners’ dashboard. That’s the “source of truth”.

Drill this with Ray + cashier (the recurring snag): open the shift first thing every morning (tap the “Shift Closed” button → enter float → Open Shift), and **close it at day-end** with a note on any cash difference. The till blocks the first sale of the day only if the shift wasn’t opened — it’s the one daily habit that keeps everything else working.

Pre-flight checklist

Item	State
All 5 role training guides live	✔ on tntilco.cleva-ai.co.za/training/
All role logins routed to Flo’s inbox (aliases)	✔ test each role yourself
Branded login email + “Log in to ILCO” button	✔ live
Owner 360 verified on mobile	✔ “Good evening, Coenie” + live tiles
Swap in each staff member’s REAL email	■ when you have them
